E. HOWARD
Main street Massillon, O.
Also Agent for the Celebrated Butterick Patterns

J. R. WORSWICK, E. LEWIS
SEND FOR PRICE LIST.
WORSWICK & LEWIS,
Cleveland Brass & Pipe Works
Cor. Merwin and Canal sts. Cleveland, O.
Manufacturers and dealers in wrought iron pipe, iron fittings, brass goods, for steam, water, gas and oil. Cameron steam and Eureka hand Pumps. All kinds of steam and gas fitting tools kept constantly on hand.

MASSILLON IRON FOUNDRY.
KILLINGER & CO.,
MANUFACTURERS OF
Parlor, Heating and Cooking Stoves,
Plows and Plow Points,
Car Wheels, Bells, and
CASTINGS GENERALLY,
Stationary and Portable
Steam Engines and
Circular SAW MILLS.
PROMPT ATTENTION given to repairing
Mills, Engines and
Machinery of all kinds.
Iron Building Material
Constantly on hand.
Furnished to order.
Office and Foundry, Main st. west side of canal.

THE Earth Closet Company.
JOHN HOWARD, General Agent for Ohio Western Pennsylvania, &c.
Patent Dry-Earth Commodes in Walnut or Ash Cases.
Patent Dry Earth Apparatus for Fixed Closets or Privies, either Pull-up or Self-acting.
The Dry Earth Closet is a successful substitute for the water closet, being cheap, less liable to get out of order, and positively free from odor. Suitable for dwelling house, sick chamber, merchants' offices, factories, schools, railroad depots, hospitals, prison cells, &c., &c. Call and see them at the Massillon Excelsior Works. 343-1y
Agents wanted in every town.

Miscellaneous.

HOHENLINDEN.

BY THOMAS CAMPBELL.

On Linden, when the sun was low,
All bloodless lay the untrodden snow,
And dark as winter was the flow
Of Iser, rolling rapidly.

But Linden saw another sight
When the drum beat at dead of night,
Commanding fires of death to light
The darkness of her scenery.

By torch and trumpet fast arrayed,
Each horseman drew his battle blade,
And furious every charger neighed,
To join the dreadful revelry.

Then shook the hills with thunder riven,
Then rushed the steed to battle driven,
And louder than the bolts of heaven
Far flashed the red artillery.

But redder yet that light shall glow
On Linden's hills of stained snow,
And bloodier yet the torrent flow
Of Iser, rolling rapidly.

'Tis morn, but scarce yon level sun
Can pierce the war-clouds, rolling dun,
Where furious Frank and fiery Hun
Shout in their sulphurous canopy.

The combat deepens. On, ye brave,
Who rush to glory, or the grave!
Wave Munich all thy banners wave,
And charge with all thy chivalry!

Few, few shall part where many meet!
The snow shall be their winding sheet,
And every turf beneath their feet
Shall be a soldier's sepulchre.

Isaac R. Sherwood, secretary of state for Ohio, has favored us with the a copy of the second edition of the statistics of Ohio for 1871. In the preface he says, in reference to the variety of labor imposed on one in his office, that "it would hardly be possible to plan a greater or more ridiculous variety of labor for a state officer." The statistics embodied in this volume are of the highest interest to all classes. Columns of valuable facts might be gleaned from its pages, but it would require the capacity of papers of the largest size to do it justice. A general list of incorporated companies gives the following result:

One hundred and seventeen manufacturing companies—
Ninety banking and loan associations—
Forty-seven railroad companies—
Twenty-nine mining companies—
Ten news printing companies—
Eleven state railroad companies—
Four insurance companies—
Three gas companies, and
Fifty-three miscellaneous companies.

These companies are the increase in one year. In population and wealth Ohio has changed from the eighteenth to the third in rank in the Union. In 1790 the population was put at 45,365—it is now at 3,000,000. Louisiana started at the same time in the race with 75,350 people—it is now the 21st in rank, and numbers 726,915.

Four counties, Cuyahoga, Franklin, Hamilton, and Montgomery, exceed a mark in population, and it stands an about the same relation in regard to wealth. In 1870 the people of this county numbered 52,508. Other items of interest may be presented hereafter.

A SCHOOL POSTOFFICE.

The idea of having a postoffice in school may be a novel one to many. My attention was first directed to this subject by reading a description of a school postoffice. I resolved to establish one in my own school upon an entirel ydifferent plan. This resolution I carried into effect. Its results may be of interest to my fellow teachers. In the first place I purchased a lozenge box, cut hole in the cover large enough to slip a letter through, and nailed it up in my school room. I then made out a list of regulations, something like the following:

1 Mail distributed each morning.

2 Each letter written by one pupil to another, must contain a question pertaining to some subject presented in some text-book used in the school.

3 The scholar receiving the letter must answer it and the question it contains, within one week from the time received, and also state in his letter the number of mistakes found in the letter received.

4 Letters must contain no matter not pertaining to the school.

5 If scholars receive letters which they cannot answer, they may write and ask the teacher to assist them.

6 All written exercises given out in the classes must be directed to "The Teacher," and put in the postoffice.

7 The postmaster will inform the school secretary of the number of letters distributed each morning, who will make a record of it in the school journal.

8 The teacher will claim the privilege of inspecting the letters at any time before distributing.

9 Each morning the postmaster will collect the letters distributed the day before, and pass them to the teacher, who will correct and return them the next day.

10 The school secretary shall make a record of the letters free from errors, and also state by whom written.

11 Letters must be neatly written and properly directed.

12 The teacher would be pleased to correspond with any scholar upon any subject pertaining to their lessons, or the school.

These regulations I read to the school, explained the object of the post office, advised each scholar to purchase a small blank book, and keep a record of the questions asked and answered, appointed a postmaster and a school secretary, and explained to them their duties.

The result of my experiment was a great interest on the part of parents and pupils, a full mail every morning, a neatly kept school journal, and a decided improvement in the language, spelling, punctuation, and writing of the children. They also acquired a vast amount of general knowledge: the writing of which fixed it firmly in their minds. There were twenty-five scholars attending school, but eight of whom could write. During a term of twelve weeks eight hundred letters passed through the postoffice. Most of these letters were written out of school hours. The largest mail distributed at any one time was seventy-four letters. The questions asked were all sensible, and most of them original.

I frequently wrote letters to the scholars, explaining the import of the different papers used in business, and requesting them to write various kinds. The result was, that I had at the end of the term a large package of notes, bills, receits, invitations, orders, advertisements, business cards, &c., to show the committee and friends attending the examination. The children thus gained a great deal of practical knowledge, and the parents were permitted to see specimens of their children's industry.

I have received the eulogiums of parents on the plan given above, and know that it has added to the interest of my school. I think it would be more interesting in a large school. It would then, I think, be better to have the mail distributed once a week. Any exercise which calls for frequent use of pen or pencil, is of benefit to children, and if the exercise can be made to *seem play*, all the better—that is, if the same results are produced. I would advise all teachers who desire to increase their reputation, and to improve their scholars, to try this plan and mark its results. Teachers who are afraid of work, or distrust their own ability should not try it; for it requires considerable time, and also a large stock of information in regard to the branches taught.—*Eliza H. Morton in Mass. Teacher.*

THE WEEK OF PRAYER.

The officers of the different branches of the Evangelical Alliance have issued their annual programme of topics for the week of prayer, extending from January 5th, 1873, to the 13th. The following are the subjects selected:

Sunday, Jan. 5—Sermons. Subject: The foundation, security, and universal extension of the Christian church.

Monday, Jan. 6—Devout acknowledgment—Remembrance of God's mercy to the nations, to families, and to the churches; providential and spiritual blessings to ourselves; confession of sin.

Tuesday, Jan 7—Prayer: For Christian church; their increase in love activity, fidelity to truth, and the clearer manifestation of the unity in the faith; for ministers, missionaries, and evangelists.

Wednesday, January 8.—Prayer: For families, for sons and daughters of Christian parents; for a blessing on home influence, and on the services and ordinances of "the church of God;" for schools, colleges, and universities; for children at sea, or in foreign lands; for young men in business, and professions; for servants; and for all in sickness and tribulation.

Thursday, Jan 9.—Prayer: For nations; for kings, and all in authority; for the maintenance of peace; for increase of righteousness; for the spread of religious liberty; for the growth of sound knowledge; for contentment, concord, and good will among all classes; for the discernment of God's hand in national judgments; and for the removal of intemperance, immorality, and the sins which are a reproach to any people."

Friday, Jan. 10.—Prayer: For mankind: for the circulation of the Holy Scriptures, and the spread of pure literature; for the overthrow of all forms of tyranny and oppression; for the removal of every form of Anti-Christ; for all prisoners and captives; and for the increase of that kingdom which is "righteousness, peace, and joy in the Holy Ghost."

Saturday, Jan. 11—Prayer: For Sunday schools; for missionary, tract, and other religious societies; for the raising up and sending forth of more laborers into His harvest;" and for the removal of hindrances to the spread of the Gospel, and the conversion of the world.

Sunday, Jan. 12.—Sermons: "Let the whole earth be filled with His glory. Amen and amen."

LOST OR STOLEN.—Through the agency of villains under the disguise of friends, the undersigned has lost the following items of property:

An unencumbered estate;
A vigorous constitution;
A fair moral character;
A good standing in society;
A active, healthful conscience.

Also at the same time or soon after the affection of a wife, or children and friends.

The miscreants who have thus robbed me are of one family. Their names are Rum, Gin, Brandy, Wine and Ale.

WHAT IS BUDDHISM?

At least one third of the human race profess to be Buddhists, that is, followers of Buddha—who are divided into sects or schools, the northern and southern; the Buddhists of Thibet, Mongolia, Manchuria, China and Japan being classed with the former; and those of Ceylon, Burma, and Siam with the latter.

Buddha left no writings, but those who followed him and committed to writing his creed, make it to consist mainly in the Four Verities as his followers call them which are: 1. Suffering exists. 2. It is caused by desire. 3. It can be ended by Nirvana. 4. Nirvana can be obtained by mortifying the passions and affections, and obtaining mental repose or apathy, somewhat like unto Nirvana. The meaning of the word Nirvana is, calm and unruffled; and the notion attached to it is that of endless or unconscious repose It is not exactly annihilation, but unceasing apathy. What was taught about it however, was so much like annihilation that many leading Buddhist writers have mantained that when Buddha died he forever ceased to be as really and truly as the light of a lamp ceases to be when its flame is extinguished.

Other leading Buddhists deny this, and assert that it is not a discontinuance of individuality, but freedom from all the evils of previous existence. The latter is probably the correct view, and it is certainly the one which the great mass of Buddhists now believe in.

Of this ideal state of existence Buddha himself is said to have spoken as follows: "It is the end of successive existence: it is very subtle; it is free from decay; it is free from delay or development of events; it is pure; it is tranquil; it is stable; it is free from death; its blessedness is great; it is unrelated or supernatural; it is free from restraint, it is free from sorrow; it is free from the evils of existence." This last phrase, undoubtedly is the same as in the first phrase, successive existence. Those who reach Nirvana are few. But if any one attains the knowledge that is proper to be acquired; if he learn the universality of sorrow; if he overcomes that which is the cause of sorrow: and if he practices that which is proper to be observed by him the possession of Nirvana will be secured.

SHADOWED LIVES

One of the saddest thoughts that come to us in life is that in this bright, beautiful, joy-giving world of ours, there are so many shadowed lives.

If suffering came only with crime, even then we might drop a tear over one whose errors had wrought their own recompense. But it is not so: alas! then we should not have it to record that the noblest and most gifted are often among those who may count their fate among shadowed lives. With one it is the shadow of a grave, long, deep, and narrow, which falls over a line, shutting out the gladness of the sunshine, blighting the tender blossoms of hope

With another it is the wreck of a great ambition. He has builded his ship, and launched it on the sea of life, freighted with the richest jewels of his strength, his energies, his manhood. Behold it comes back a wreck!

With others, disease throws its terrible shadows over the portal, and shuts out the brightness of the outside world from the sufferer within. But this is the lightest shadow of all, for it teaches the heart the priceless lesson of endurance and faith, and through its darkness the sufferer sees ever the star of promise shining, leading to the great beyond. Of all shadowed lives, we find it in our hearts to feel most for those who are cursed by an unhappy marriage.

Unhappy marriage is the quintessence of human bondage. It wounds daily our fondest and sweetest impulses; it trifles with and buries our holiest and dearest affections, and writes over the tomb thereof—No hope. It embitters the victim with the thought that lost forever to her life is the glory of a great love: closed forever to her are the portals of a happy home—the fountain of freshness and delight, at which the soul must needs drink to gather strength for the heat and burden of the world's battle.

"Green corn" sounds curious at this season of the year, but here is what the Palatka (Fla) Herald says: "The steamer Ocklawaha arrived here on Monday, the 9th inst., from Salt Lake. She brought nine passengers. What is noteworthy for the season, she had for market one thousand ears of green corn from Turkey Creek, Indian river. This steamer made the trip from Salt Lake to this place in twenty-four hours.

The children are too sharp now-a-days to be fooled with the illogical morals which formerly sufficed. Last Sunday a Chicago father was taking his heir of seven years to church. The father got interested talking to a friend about the Boston fire, and hopeful slipped off for a game of marbles. A quarter of an hour after his father saw him coming to 'im bat'le in tears.

'What is the matter?' he asked.

'Papa I have lost all my marbles.'

'Of course, God punished you for not going to church.'

'But, papa, neither did Joseph go, and he has won!'

MALLEABLE GLASS.

One of the lost arts, which skill and science have for hundreds of years been making efforts to re-discover, is the production of malleable glass. It was mentioned by many ancient writers, especially by Pliny, who speaks of its having been indented when thrown on a hard substance, and then hammered into shape again like brass. The world uses a vastly greater amount of glass than during the early ages, but has never been able to overcome its brittleness. That accomplished, and it would enter into use not even suspected now, and probably dispute with iron itself for supremacy as an agent of civilization. A glass spinner in Vienna has recently made a discovery that may lead to the lost link in the chain of early invention. He is manufacturing a thread of this material finer than the fibre of the silk worm, which is entering largely into the manufacture of a variety of new fabrics, such as cushions, carpets, table cloths, shawls, neckties, figures in brocaded velvet and silk, embroidery, tapestry, laces, and a multitude of other things. It is as soft as the finest wool, stronger than silk thread; and is not changed by heat, light, moisture or acids, nor liable to fade. So important is the matter deemed, that while the process is kept a profound secret, the Austrian minister of Commerce has already organized schools for glass spinning in various places in Bohemia, and a variety of manufactured articles are now for sale and will no doubt soon reach America. If it shall end in the final re-discovery of malleable glass, so that it can be wrought or rolled into sheets, it will revolutionize much of the world's industry. Indeed, no one could safely predict to what uses it might not be applied, as the material is plentiful in all lands. Mankind have long waited for it. Let us hope the time is near when so great a boon will be vouchsafed to them.—*London Times.*

A NEW AND IMPORTANT TRIBUTARY PROPOSED

A Salem correspondent of the Cleveland Leader gives the following account of a project lately started for a new road, which in intended as an important tributary to the Valley Railroad:

It is stated that some prominent coal and iron dealers of Eastern and Northern Ohio are actively canvassing a project for a new railroad, opening an entirely new field for coal and iron for this section of Ohio; by which means they intend not only to compete with Pittsburgh and Cumberland manufacturers of iron, but with any in our country. Vast veins of the richest mineral ore have recently been discovered in Jefferson county, and parties of large capital are considering the feasibility of running a road, beginning somewhere in Columbiana county, perhaps at New Lisbon, which is surrounded by great natural wealth in a southerly direction through the rich hills of Jefferson county or through Belmont and Guernsey counties, entirely unopened to commerce. By this means communication is readily opened with the south, the west, and the north. The main object at this time is to hit the Valley road near its southern terminus, thus forming an eastern arm to the great coal and iron road. The same company intend to erect furnaces and rolling mills in the several counties through which the arm passes thus linking itself intimately with the Cleveland iron manufacturers.

Through the combined working of this road and the Valley ores, coal and made iron can be passed on to Cleveland at far less figures than the same material is deposited on your wharf to-day. Northern and eastern Ohio should be and we believe are profoundly interested in the building of the Valley road and the early consummation of the new project. It is opening to the miner and manufacturer new territory with boundless mineral wealth which can be produced at rates far lower than is now paid the railroad and mining monopolies. It is a rare chance for Cleveland and for all the towns and all the country in northern and eastern Ohio.

A very striking illustration of the influence which trees have upon rain is given by a gentleman who has just visited the island of Santa Cruz, West Indies. Twenty years ago he was there, and the island was a lovely garden throughout its length and breadth. The trees native to it and flowers everywhere flourished, and the soil was fertile. When his last visit was made he found a third of the island a desert waste; the soil was parched and barren on the sea-shore. The destruction of vegetation is steadily going on, and the planters one after another abandon their farms as they yield them nothing. The only way to account for the great change is that nearly all of the trees have been cut down and the amount of rain which has fallen since has not been enough to keep the land refreshed.

The United States court for the northern district of Ohio, commences its next term in Cleveland January 7, 1873. We notice that the following gentlemen from this section of the state have been selected as Jurors:—*Grand Jurors*—Wm. McCoy, Carrollton; John M. Denham, Coshocton; Joseph Shane, Richmond, Jefferson county; Isaac Brown, Massillon; John M. Hodges, Bolivar, Tuscarawas county; John C. Jamison, Cadiz. *Petit Jurors*—John Pitcairn, New Lisbon.

GOING INTO BUSINESS.

One of the pertinacious errors of the day is the idea entertained by many young men that wages are degrading. It is thought by them that to be the recipient of a stipulated salary is not nearly as respectable as to be able to say 'my store,' or 'my shop.' As a result of this we find hundreds of inexperienced young men rushing into business for themselves. Some succeed, but the majority fail, and are compelled to retire to their former positions.

It may gratify the ambition of a young man to go into business for himself at twenty one, but experience has clearly demonstrated that as a rule it is an unwise proceeding, unless he is surrounded with circumstances more favorable than those which are usual. Far better to devote three or four years of manhood to the service of others than to rush inexperienced into competition with the veterans in business who already occupy the field.

The private soldier is never transformed into the commander in-chief. Such a proceeding would be regarded as the supremacy of folly, and yet it would be scarcely less unwise than the promotion of an apprentice to the rank of master.

GERMAN FARMING.

A correspondent of the Springfield Republican, writes from Dresden: Of the two and a half million inhabitants of Saxony, two-thirds live in the country (platland), and 1,300,000 are land owners: 800,000 possessing each more than two acres. 1,900,000 being their own farmers. The valuation of the land outside of the city, reaches nearly $700,000,000. The 50,000 farmers of Massachusetts, with a valuation in land of less than one-fifth as much, get more than two-thirds as much for their crops as the Saxon farmers.

The Saxon farmers, however, never ask whether farming pays. They maintain a slow but sure prosperity. And, during the last third of a century have advanced the rate of production proportionately with an increase of nearly fifty per cent in population.

The railway recently took me over thousands of acres of crops in the process of harvesting, in the kingdom and Prussian province of Saxony, a region for the most part that would delight the eye of even an American farmer, lying as level and mellow to the plow as the prairies of Illinois. Often as far as the eye could reach on either side of the railroad, stretched one cultivated expanse, unmarred by fences, but checkered all over with infinite interchange of crops, scarcely any one field of one crop being more than one or two acres in extent.

Yet in all these 'floors' (certainly a field is here a floor) not a mowing or reaping machine, or horse-rake was to be seen. Every swath had been haggled off and tumbled together by the old fashioned scythe; every winrow of hay had been collected with a puttering hand rake, every sheaf of grain bound by a woman's arm, and when the crop has finally gone off on wheelbarrows, or drawn by harnessed cows the serried rows of sickle cropped the antiquity of the mower's tools, and his or her unskillfulness in using even those. Imagine a scythe only three feet in length, four inches broad at the heel, fixed in a straight snath, and a hand rake with a young sapling, stripped of its bark, for a handle, and you have specimens of the outfit of a German harvester.

The war between the people and the railroads still goes on, and gives little promise of ceasing until at least some of the abuses to which the traveling public are subjected are done away with. We are glad to know that the matter has at last reached congress and bids fair soon to assume tangible form in a bill that is to be presented by the house committee on commerce. The special cause of complaint is that many transportation companies made a practice of carrying passengers and freight at losing prices, making the losses good by heavy overcharges in local passenger and freight rates. These complaints were laid before congress at its last session and the committee in question was charged with the duty of investigating as to their justice. It is now said that the committee, upon full investigation, have found the complaints, in many instances, to be true and, that they propose to remedy the difficulty by reporting a bill providing that way passengers and freight shall not be subjected to higher rates of charge per mile than the lowest rates charged by the same line for the same services over any other part of the line, and entitling persons subjected to such discriminative charges to recover the excess, with cost and counsel fees. The provisions of the act apply to all common carriers in carrying passengers or freights from one state to or through another state. The committee finds its justification for congressional interference on the ground that congress can regulate commerce between the states. It is proposed, if possible, to press its passage during the present session, and if such be the case, a lively fight may be confidently expected.—*Beacon.*

Uncle Sam goes into a little express business himself, much to the benefit of everybody but the express monopoly. The late law allows packages and merchandise of a weight not exceeding twelve ounces by mail, at a rate of 2 cents for each 2 ounces. For instance, a half-dozen pocket-handkerchiefs which would formerly have cost $2 to send by express to California, if mailed can now go for only 12 cts. A pair of boots, provided they don't weigh over 12 ounces, each boot, can go by mail to the most distant point (in two parcels) for only 24 cents. The new law is of immense benefit to the public, and how bad we shall all feel at the great losses it will cause the express companies.

NEWSPAPERARCHIVE®

The Independent.

Two Dollars a year, in advance.

Massillon, Wednesday, December 25.

Congress is moving its slow length along. The other day that body took a vote in regard to Mr. Sumner's move to erase all memorial battle flags and such mementos of the war, and the idea was condemned by a strict party vote—excepting that two democrats voted with the republicans.

The big ado made by so many papers about punishing Mrs Woodhull and her sister for writing and printing certain bad words as to eminent men, for which they were arrested and put in jail looks as if it may fizzle out—for the accused are out of prision on little bail. As murderers and great thieves go unpunished in New York they might let these women off pretty easy.

On Monday no trains passed here eastward in consequence of the noon train coming from the west being off the track at or near Lucus, this side of Mansfield. Trains passed west, but had to stop this side of the accident. Nobody hurt that we hear of. But the track was badly damaged, which wont be so long,

Yesterdays papers give shivering accounts of the intense cold last Sunday at various places. The mercury was from 10 to 20 degrees below zero. According to the almanac the cold season begins at the winter solstice, which is the 20th, 21st, or 22d of December. On this occasion it has made a savage commencement, and how it may end can be better told by next April. Many of the water plugs are frozen up just now. It would be well to look after the fire hydrants.

Concerning the different wills of Mr. Greeley a legal wrangle has been commenced. One party claims that the deceased was unfit in mind to dictate such a document properly.

The New York Tribune is just now specially interesting, as it publishes full reports of speeches made by Mr. Tyndall on scientific subjects. The two first reports discuss the subject of light and all inquirers in search of truth in this branch of philosophy cannot but be greatly interested in reading them. It is probable other reports will follow. Mr. Tyndall has a world wide reputation as a scientific man.

For the last few weeks the public has been bothered considerably about the N. Y. Tribune, as to who shall carry it on as editors. The following statement seem to settle the question:

New York, December 22.—Wm. Orton, after considerable negotiation, has re-sold to Whitelaw Reid fifty shares out of the hundred constituting the capital stock of the Tribune Association, for a large advance on the price at which he last week purchased. He retains one share, and it is further agreed that he shall be elected one of the trustees of the association, thus securing it the benefit of his wide influence and recognized business ability.

The Tribune, in an editorial announcing the proprietorship, has the following: We purpose continuing our old battle against injustice and ignorance under the same republican banner which Horace Greeley upheld so stoutly and so long, and on the same policy of candid independence which it was one of his latest acts of reaffirm over his own signature in these columns. Naturally we shall prefer to support, as far as possible, an administration which professes the party name. Such an administration will receive from us a frank and cordial approval of every action performed in accordance with its principles, but the Tribune is nobody's official advocate. Our party sympathies are not strong enough to overcome our independence, or muzzle our honest utterance.

Congress has adjourned over the holidays. No meeting till next year.

155 new celestials from China have recently been added to many other operatives in the manufactories at Fallston, Pa. It is said they give general satisfaction.

Jay Gould, who has been charged as one of the great railroad gougers of New-York, was arrested therefor, has surrendered, and proposes to pay the company some nine millions dollars, which looks like an acknowledgment of guilt.

Last week the signal service reports to us that way off to the northwest in some localities the mercury on [illegible] was down to 28 and 30 degrees below zero. That wave reached here Saturday night.

Among themes suggested for prayer among religious people from January 5th to 12th is one against intemperance. We hope [illegible] correspon[illegible] by the good people. The programme appears on first page.

consideration which is tangible for the money they receive from customers. It is the same way with merchants of all classes; the purchaser has something to show for his money; but what does the patron of the grogseller have to show for value received? Often a bloody nose, black eyes, a big drunk, a row, and not unfrequently a great crime, which ends in the prison or on the gallows. Let guzzlers think of these things when they are debauching their bodies and minds with anything that intoxicates.

Bro. H. D. McGaw, a leading and successful working temperance man of Pennsylvania, has sent us a series of circulars in regard to the cause in that state. They have a miserable license law there, and measures are being taken to have it repealed, as it is considered a disgrace to the state and the times in which we live.

Another victim, the Alliance papers inform us,—this time a boy 12 or 14 years of age, was killed by being run over with a locomotive, within the last week. This is the second fatal accident at that place within two or three weeks. Where there are so many switches, right in town, it is dangerous to get on them at any time.

Advertising is the oil which greases the wheels of business, and the more it is used the better will it be for those investing in that way. Now is the time to not be too modest at seeing your names in print—come right out and let the world know in what, where and how you can help it along.

New year's day brings the time for annual settlements, and for this purpose bill heads and statements are indispensable. We are prepared to furnish them to any extent, at short notice, and on reasonable terms. Also, to promptly attend to other job work, such as is needed in a great variety of business.

Mr. Randolph, lately of Boston, is now here. Last Wednesday evening he proposed to lecture in the opera house, but so few attended that the lecture did not come off. One reason is, there was not sufficient notice given, and another that he is comparatively unknown here, and our community is hard to draw out to intellectual entertainments. As Mr. R. becomes known he will be better patronized.

The last Buckeye State gives the total expenses in building the new courthouse for Columbiana county, which amounts to $129,378. This includes the cost of the entire structure, heating furnace, water and gas pipes, bell, clock, and all other incidentals. It is a grand building. The old courthouse, put up in 1811 is to remain.

A runaway took place last Saturday, by a horse attached to a sleigh, on Main street Oliver Jacobs and his sister were thrown out near the corner of Main and Erie streets, but fortunately they were not seriously injured, though the sleigh was badly broken up. This is the second adventure of that sort happening to Mr. Jacobs within a few months—the first time he had a leg broken, which is not yet well.

Saturday the streets were crowded with people, horses, and vehicles of various kinds, among which were a fair proportion of sleds and sleighs. The lively jingle of sleigh bells was common on that day, for the streets were more icy than snowy. Sunday was too cold for such entertainment, as the mercury in the morning was 8 to 12 and 13 degrees below zero, and held its own pretty well most of the day. Hot stoves were more enjoyable than cold sleighs.

In some of our exchanges we notice the spell of holiday is done with a double l. If an additional l was introduced it would still further ornament the word.

Considerable jingling of sleigh bells took place here on last Friday, but the slipping was done on ice rather than snow, which the rain of the night previous pretty effectually reduced to water.

If the theory is correct that the destruction of the trees is the cause of dry weather, it would be a good idea to cultivate and grow more of them. A great many little spare corners might be thus used with decided advantage. Once the great work was to get the trees out of the way—now we want many of them.

Another change took place in the time table on last Monday. As soon as we can get the figures we shall introduce them to the public.

[illegible] of eating will be done [illegible] shame, with desecrate the day by getting drunk. Reader, dont do so.

[illegible] going [illegible] it pours. Such

P. B. RANDOLPH, a lecturer of rare abilities and national distinction, will speak in Good Templar's Hall over the Union National Bank, Erie street Friday evening, December 28th, commencing at 7-45 o'clock. Wherever he has spoken people who were so fortunate as to hear him have expressed a universal approval of his distinguished abilities to instruct, amuse and entertain his auditors. On this occasion we may expect something of an amusing character, so all who enjoy wit and fun mingled with good moral teachings, should be present.

London, Friday, Dec 20, 1872.—The late heavy storms have swollen the streams throughout England to a great hight and several of them have overflowed. Windsor and Eton are flooded. The river Trent and its affluents, the Soar and Derwent, have risen above their banks, submerging a large portion of the country in Leicester, Derby and Nottingham. In some sections of those counties only the tops of trees and hedges are visible.

Heavy landslips have occured near Dover, and railway communication with that town is interrupted.

The town of Peterborough, in Northampton county, is flooded, and many of the residents have been compelled to take refuge from the water in the upper stories of their dwellings.

A dispatch from Liverpool says four hundred and forty-nine persons, including passengers and sailors, have perished by marine disasters during the past ten days.

Thirty persons were lost by the sinking of the ship Matchless of the coast of Northumberland county.

Paris. Friday, Dec. 20, 1872.—It is probable that some of the bridges crossing the river Seine in this city will be swept away by the floods.

Naples, Friday, Dec. 20, 1872.—A gale of unprecedented violence swept over Naples yesterday. Much damage was done to property in the city and shipping in the bay.

Halifax, N. S., Friday, Dec. 20—A heavy snow-storm has prevailed all day from the north-east. The snow storm has prevented the arrival of any train from the west or east since yesterday.

ACCIDENTS.

Insure in the Travelers of Hartford, Conn.

OPEN ALL THE YEAR.

St Louis Michigan, Magnetic Springs. The first Magnetic Water discovered in America! (1869) Has been visited by over 10,000 persons. Entire route by railroad.

IRON CLAD PAINT.

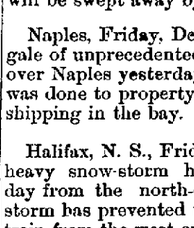
ADDRESS

IRON CLAD PAINT CO.,
CLEVELAND, OHIO.

This company is owner of and manufacturers under Wm Green's several patents, and is the only company in the world that makes paint from pure, hard Lake Superior Ore, such as is used in furnaces for making Pig-Iron. The most economical, most fire proof, most water proof, most durable and most useful paint made.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping-Cough, Bronchitis, Asthma, and Consumption.



Among the great discoveries of modern science, few are of more real value to mankind than this effectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of **Consumption**, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing **Coughs**, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attacks of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome **Influenza** and painful **Bronchitis**, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

PLANTATION BITTERS.

S. T.—1860—X.

This wonderful vegetable restorative is the sheet anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid it has no equal among stomachics. As a remedy for the nervous weakness to which women were especially subject, it is superceding every other stimulant. In alle climates, tropical, temperate or frigid, it acts as a specific in every species of disorder which undermine sthe bodily strength and breaks down the animal spirits. 444-1y

Mexican Mustang Liniment

For Man and Beast.

Probably few articles have ever had so extensive a sale, while none have been more universally beneficial than the celebrated Mexican Mustang Liniment. Children, Adults, Horses, and domestic animals, are always liable to accident, and it is safe to say, that no family can pass a single season without some kind of emoliment being necessary. It becomes a matter of importance then to secure the best.

Over three hundred livery stables in the city of New York alone are using the Mexican Mustang Liniment, in all of which it gives unusual satisfaction.

CAUTION.—The genuine is wrapped in a fine steel plate engraving with G. W. Westbrook, Chemist, and Trade Mark, Mexican Mustang Liniment, engraved across the face of each wrapper. The whole bears be poprietor's private U S revenue stamp, and not a common stamp as used by druggists. Lyon Manufacturing Co., 53, Park Place, New York. no3—447-1y.

On motion the council adjourned.

THE "LIGHT RUNNING" "DOMESTIC"

As a Family SEWING MACHINE challenge *ANY AND ALL* other Sewing Machines in tightness and quietness of running; in simplicity of construction and ease of management, in the

Perfection of its Tension,

in its wonderful power, and in its

Great Durability.

It will sew with three hundred cotton, and without moving its tension will sew forty linen. A feat which can be successfully accomplished on no other machine. It is not only the best family and tailoring machine, but is well adapted to sewing leather. Its range of work is much greater than any other machine, as can be proven by the great variety of work which it is successfully accomplishig in the different shops and families in this city. Although but recently introduced it meets with greater sales than any other machine.

We continue to sell the celebrated

American Sewing Machines,

with their very recent improvements. Also the new American No 2, which is adapted to both family and shop work. We have not only the best machine, but the greatest variety of styles ever offered in this market. They are insured as long as any other responsible agent dare insure his. We sell attachments, needles and oil.

We can sell you the best waterproof for the money, Humberger & Son.

In order to do Christmas we get the INDEPENDENT out a little previous this week, Tuesday afternoon. So we can't tell of the big doings at the various churches with their Christmas trees, and all that till next week. We anticipate something on the subject will be well worth recording.

Some of our exchange brethren are doing Christmas thoroughly, as they don't hold forth this week. The INDEPENDENT goes right along, and wishes a happy Christmas and New Year to every body.

Major A. J. Rahney, who has not been among us for several years, lately came on a visit to his relatives and friends.

At this writing we are not posted, but suppose the dry goods stores and many other places of business will be closed to-day. Also, the postoffice will be closed, excepting from 8 to 9 A. M. and 2 to 3 P. M. A great many want to keep Christmas, and it is so earnestly done here, that newyears don't amount to anything.

Gen. Wm. A. Knapp, of Columbus, is now making his mother and other relatives and numerous friends a visit.

Henry Bose, who lives at Beach City on the L. S. & T. V. road, has erected a fine new hotel, in which he is doing a thriving business. It will be an accommodation to many people to be provided with a pleasant stopping place, and the prospect is that Mr. B. will make his enterprise a success.

Bishop BEDELL will address the children this (Christmas) evening, and officiate on Christmas day at St Timothy's Episcopal church. All are invited.

By notice in to-day's paper it will be seen that contractors have opportunity for making bids next Saturday on a city job. It is well worth looking after.

Here, the Pittsburg Commercial is a very popular daily, as it always arrives by the first morning train, bringing the earliest news of the day. Our readers will find the prospectus of that paper in another column.

The Stock Journal, by N P Boyer & co, Parkersburg, Pa, concludes its 8th volume this month, and seems to be flourishing.

People's Illustrated Monthly, Pittsburg is one of the most beautifully illustrated papers in the country.

It seems quiet the last two days because of the absence of railroad whistles.

The most active and agreeable employment for many last Sunday was to sit by and keep hot fires. Compared with that going to church and listening to dry preaching was dull business in a great many cases.

Instead of the protracted drouth which so extensively prevails in this country they are having terrible floods and storms in Europe. England, Italy, France and other countries have suffered greatly from loss of life and property from inundations. Hurricanes and disasters on the ocean have occasioned the loss of many vessels and lives. In the matter of floods our turn may come before long—for nature has compensations in this as well as in other matters.

Immortality awaits some of our citizens, and they are worthy of the honors thus conferred. Clement Russell, a leading man of the firm, Russell & Co., of this city, has a locomotive named after him. But our railroad men didn't stop there, for they also have christened a station with the same name, located north of us. John G. Warwick, Esq., another of our enterprising men, has also a station named after him. Col. Beach, C. E., also a resident here, is likewise distinguished in a similar way, having a station called Beach City, a few miles south on the new road. The two first named gentlemen have families and therefore insure immortality in the usual way, but Col. B. thus far, is an obdurate bach., yet his name goes to posterity in the shape of a city.

The Minerva Commercial of last Saturday gives the details of a sad occurrence which happened there one day last week. A worthy young man, Lundy Breidenstine, jeweler, was found dead in his place of business, and on examination it was ascertained that he had been working at a pistol, perhaps repairing it, when nobody was present. He was shot through the heart or so near it, that death immediately followed.

Little boys as well as bigger ones don't like to have their amusements interfered with, but in the matter of coasting on the streets the marshal does interfere, not because he likes to do so, but because he is required by municipal law to stop it.

It is a pretty well settled fact that Porter, the man who mudered his two little children in Columbiana county a few days ago, is a drunken, quarrelsome, dangerous man, and is supposed to have been under the influence of liquor when he committed the act.

Several young ladies of this place, Misses Bahney, Bayliss, McLain, and Jacobs, who have been attending school at Media, Pa., are at home on a visit during the holidays.

L. W. Hamilton, manager of Ayer's popular art entermainments last evening began giving a series of exhibitions of magnificent paintings, representing European and American scenery, including many places of historical interest,—in the opera house. He proposes to give away a large number of beautiful chromos to the patrons of this exhibition. Here is a good chance to secure choice pictures, in addition to seeing many fine works of art, which are described in the catalogue.

For some reason the bungs are coming loose in our waterworks, and occasionally the streets are saturated with water. Perhaps the cold weather has something to do with it. At Canton water is becoming scarce—but this is a general complaint.

"We have no sympathy with fatalism, and yet we are free to say that Mr. Greely's destiny was on him, and he could not escape it. There were inward causes that gnawed their way outward to this effect. He had premonitions of it not only a few weeks but a many months ago. During some idle hours in Brooklyn, early in the campaign he said to us, with a voice of sudden sadness and a tone of unwonted pathos, 'I have but one great ambition, and that is, not the presidency, but death.' Later in the summer (or perhaps early in the fall), when some friends were talking with him at a merry supper table, when one of us gayly asked, 'How he enjoyed being praised by one political party, and damned by the other?' he simply answered that 'Nothing would gratify him so much as to receive from some celestial messenger an authoritative assurance that he must die the next morning. About the middle of October, in a Sunday evening conversation with him, the same premonitory meditations on death and immortality broke forth from his lips. About three weeks ago Mr. Greeley said to us (clasping our hand and holding it for the last time), 'My dear friend, for thirty days and nights I have not slept; I shall never sleep again; I pray for death."—The Golden Age.

Notice—TO CONTRACTORS.

NOTICE is hereby given to contractors, that in accordance with a resolution passed by the city council of the city of Massillon, on the 18th day of December, 1872, the contract for the work of filling that portion of Cherry street in said city, lying west of the track of the P., Ft W. & C. R.R., will be let to the lowest responsible bidder; said contract to be offered at public outcery, on the premises, on

Saturday, December 28, 1872,

AT TEN O'CLOCK, A.M.

FRANK WILLENBORG,
President of Council.
Attest:
CHARLES HIGGINBOTHAM, City Clerk.

1873.

THE
PITTSBURG COMMERCIAL,
DAILY AND WEEKLY.
LEADING PENNSYLVANIA PAPER

A paper so widely known as the Commercial can safely refer to its course in the past as a guaranty for the future But it will not be content to pursue the beaten path. The re-election of General Grant insures for the country a lengthened period of prosperity and progress. The press is destined to play a still more important part as the educator of the people and leader of public opinion. In the future, as in the past, the Commercial will not be content to lag in the rear, but will be fully up to the times in whatever relates to the general welfare.

As a paper of general intelligence and medium of the latest news, the Commercial is widely known and appreciated. We expend annually many thousands of dollars to supply the wants of the public.

As a paper of progress, it will hereafter continue to maintain its character in this respect.

As a paper of opinion, the Commercial will continue to discuss men and measures with perfect freedom, and with an eye single to the public good, believing that the principles of the republican party will thereby be best subserved.

As an independent republican paper, the Commercial will criticise its own party for its own good, believing that in free discussion and the independent expression of opinion only can our institutions be preserved.

As a business paper, the Commercial will hereafter, as heretofore, employ every agency it can command to meet the wants of the public. Now that the period of party excitement has been passed, it will pay special attention to topics interesting in the counting room, the banks and marts of trade, giving prominence to science, art, invention, agriculture and manufactures.

As a paper for the family it will give reading calculated to instruct, improve the reading taste and improve the mind.

As a market paper its reports will always possess a special excellence, so that the buyer and seller can at all times consult its columns for every necessary information as to prices and the spirit of the different branches of trade. Everything that is bought and sold in the Pittsburgh market and the leading markets of the country will receive careful attention, and at a large cost.

The country is about entering on a period of unexampled prosperity. The field of journalism is constantly expanding. It will be the aim of the Commercial to hold a position in it along with the leading journals of the country.

Postmasters are invited to act as our Agents.

Address all orders and letters to
THE COMMERCIAL, Pittsburgh, Pa.

While trains have been blockaded from the west we still had communication with the east.

COUNCIL PROCEEDINGS

Wednesday evening, Dec. 18. 1872

The council met in regular session and was called to order by the president.

Members present at roll call—Messrs. Folger, Oberlin, Ruchti, Warwick and Willenborg.

Minutes of the last meeting read and approved.

Mr. Folger from the standing committee on the judiciary to whom was re committed the ordinance fixing the salary of the city clerk of the city of Massillon, reports the same back, amended so as to include the salary of the mayor, which was read a second time.

Mr. Folger from the same committee to whom was referred the profile of a street to be laid out on the lands (in the third ward) of Hon. Kent Jarvis, submitted a written report in relation to the same accompanied with the following:

Resolved, That the subject of extending Grant street through the lands of Mr. Jarvis, in this city and also the subject of opening a new street through the lands of said Jarvis be indefinitely postponed. On motion of Mr. Warwick the report was adopted.

The city solicitor submitted a report in reference to the several claims for damages arising on account of the regrade of a portion of Main street, by the L. S. & T. V. Ry. Co., in which he states having had an interview with Dr. Streeter (President of said Rail way company) in relation to said claims, and was assured that the company would protect the city, &c.

On motion of Mr. Folger the report of the city solicifor was laid on the table.

Mr. Oberlin offered the following which was adopted:

Resolved, That the city council of the city of Massillon let by public outcry, on the premises, on Saturday Dec. 28, 1872, 10 o'clock, A, M., to the lowest responsible bidder, the fill on Cherry street, west of the P. Ft. W. & C. railroad.

Mr. Folger from the standing committee on claims, submitted the following report: The undersigned of the standing committee on claims respect fully beg leave to report that they have had the claim of Michael Kloepfel against the city for some time under consideration and are unanimously of the opinion that the city is in no wise liable for the damages claimed on Mr. Kleopfel's bill.

Your committee therefore ask to be discharged from the further consideration of the subject, and recommend its indefinite postponement. The foregoing report was on motion by Mr. Folger adopted.

Mr. Warwick offered the following preamble and Resolution which was adopted:

WHEREAS, The standing committee on streets and alleys did order that Main street west of the canal, and east of the river should be cindered and graveled and that said work should be done by the street commissioner, now. Therefore,

Resolved, That the operation of said order is hereby suspended, except so far as said work can be done by the expenditure of the unpaid poll tax, all of which poll tax said street commissioner is hereby ordered to expend on the said portion of Main street, and that no further or other work shall be done by said street commissioner in any part of the city except by order of the standing committee on streets and alleys.

Mr. Ruchti from the standing committee on fire department to whom was referred the subject of a new bell for the fire engine house, reported a communication from the Menuly bell foundry, West Troy, N. Y. in which the price of bells are 46 cents per lb.

Mr. Ruchti from the committee on streets and alleys reported the bill of Wm. Castleman for lumber per street commissioner $11 09 as being correct and on motion by Mr Folger an order was drawn on the treasurer for the amount.

On motion the council adjourned.

DIED—At his residence in Perry township, on the 18th inst, JAMES CLARK, in the 74th year of his age.

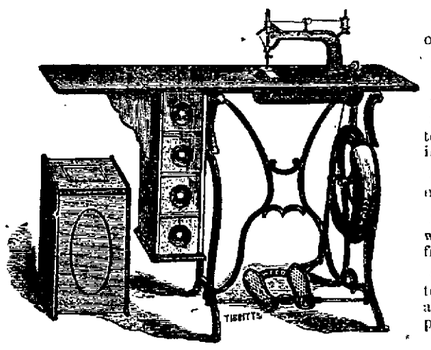
LADIES! DON'T GET IN A HURRY,
When about to purchase a Sewing Machine, but take time to give
THE WEED "FAMILY FAVORITE"
A thorough examination and trial, and you will be convinced of the following facts.



1 That it runs faster than any other Shuttle Machine.

2. That it is the simplest and most convenient machine to operate in the market.

3 That it is the easiest machine to oil and clean, every part being in plain sight.

4 It has no acting spring, every motion being positive.

5. It has a brake on balance wheel to prevent the machine from running backwards.

6. The new shuttle and upper tension, which have recently been added are the simplest and most perfect yet introduced.

These are a few of the many reasons why the Family Favorite is fast becoming the leading machine in the market as

One Hundred and Fifty Thousand

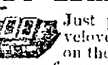
The Great Cause
Of Human Misery.



Just published, in a sealed envelope. Price six cents. A lecture on the nature, treatment and radical cure of spermatorrhea, or seminal weakness, involuntary seminal losses, impotency, physical and mental incapacity, impediments to marriage, etc; also consumption, epilepsy and fits, induced by self indulgence or sexual extravagance.

The celebrated author, in this admirable essay, clearly demonstrates, from a thirty years successful practice, that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer no matter what his condition may be, may cure himself cheaply, privately and radically.

This lecture should be in the hands of every youth and every man in the land.

Sent, under seal, in a plain envelope, to any address, postpaid, on receipt of six cents or two post stamps.

Also, Dr. Culverwell's Marriage Guide Price 25 cents. Address the publishers,

Massillon, O. April 24, 1872.—tf

VINEGAR BITTERS

Vinegar Bitters are not a vile Fancy Drink, made of Poor Rum, Whiskey, Proof Spirits or Refuse Liquors, doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the native roots and herbs of California, free from all Alcoholic Stimulants. They are the Great Blood Purifier and a Life-giving Principle, a Perfect Renovator and Invigorator of the system, carrying off all poisonous matter and restoring the blood to a healthy condition, enriching it, refreshing and invigorating both mind and body. They are easy of administration, prompt in their action, certain in their results, safe and reliable in all forms of disease.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. In these complaints it has no equal, and one bottle will prove a better guarantee of its merits than a lengthy advertisement.

For Female Complaints, in young or married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that a marked improvement is soon perceptible.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

They are a Gentle Purgative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver and Visceral Organs and in Bilious Diseases.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist: There is scarcely an individual of the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Painters, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS twice a week.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid Matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. etc. In these as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

Dr. Walker's California Vinegar Bitters act on all these cases in a similar manner. By purifying the Blood they remove the cause, and by resolving away the effects of the inflammation (the tubercular deposits) the affected parts receive health, and a permanent cure is effected.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anodyne.

The Aperient and mild Laxative properties of DR. WALKER'S VINEGAR BITTERS are the best safe-guard in cases of croupous and pulmonary fevers. Their Balsamic, healing, and soothing properties protect the lungs of the fauces. Their Sedative properties allay pain in the nervous system, stomach, and bowels, from inflammation, wind colic, cramps, &c.

Their Counter-Irritant influence extends through out the system. Their Anodyne properties stimulate the liver, in the secretion of bile, and its discharges through the biliary ducts, and are superior to all remedial agents, for the cure of Bilious Fever, Fever and Ague, etc.

Purify the body of all impure disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fortified. The liver, the stomach, the bowels, the kidneys, and the nerves are rendered disease-proof by this great invigorant.

Directions.—Take of the Bitters on rising to bed at night from a half to one tea-spoonful when needed. Eat good nourishing food, such as beef-steak, mutton chops, venison, roast beef, and vegetables, and take out-door exercise. They are composed of purely vegetable ingredients, and contain no spirit.

SOLD BY ALL DRUGGISTS & DEALERS.

The Great Pictorial Annual.

Hostetter's United States Almanac for 1873, for distribution, gratis, through all the United States, and all civilized countries of the Western Hemisphere, is now published and ready for delivery, in the English, German, French, Norwegian, Welsh, Swedish, Holland, Bohemian and Spanish languages, and all who wish to understand the true philosophy of health should read and ponder the valuable suggestions it contains. In addition to an admirable medical treatise on the causes, prevention and cure of a great variety of diseases, it embraces a large amount of information interesting to the merchant, the mechanic, the miner, the farmer, the planter and professional men; and the calculations have been made for such meridians and latitudes as are most suitable for a correct and comprehensive National Calender.

The nature, uses, and extraordinary sanitary effects of Hostetter's Stomach Bitters, the staple tonic and alterative of more than half the Christian world, are fully set forth in its pages, which are also interspersed with pictorial illustrations, valuable receipts for the household and farm, humorous anecdotes, and other instructive and amusing reading matter, original and selected. Any of the Annual's to appear with the opening of the year, this will be one of the most useful and may be had for the asking The proprietors, Messrs. Hostetter & Smith, Pittsburgh, Pa., on receipt of a two cent stamp, will forward a copy by mail to any person who cannot procure one in his neighborhood. The Bitters are sold in every city, town and village, and are extensively used throughout the entire civilized world.

A watering place correspondent writes that 'very few bathers bathe at the west end,' whereupon Mrs Partington says she 'had an idea they bathed all over.'

Delphi, Indiana, has the following dog ordinance: "Dogs that are not collared and labelled, no matter how respectably connected, will have their narratives amputated one inch south their ears.

Bilious.—If you feel dull, drowsy, debilitated, despondent, have frequent headache, mouth tastes badly in morning, irregular appetite and tongue coated, you are suffering from torpid liver or 'Biliousness.' In many cases of Liver Complaint only a part of these symptoms are experienced. As a remedy for all such cases, Dr Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy. Sold by all first-class druggists.

NOTHING CURES NOBODY.—When a man is supposed to have consumption or that tendency in the constitution which will in time fully develop that disease, nine times out of ten he is given over to die for the reason that nine out of ten people believe it an incurable disease. What good does it do to believe this? Does it render the person safer, or add to his hope of lengthened life? Not at all. It leaves him without hope, and life even without hope will, in all likelihood, abandon him if to despair. Dr Keyser has cured numbers of cases of consumption. Dr Keyser's Lung cure will disintegrate tuberculous matter, and carry it out of the system. It will do more. It will neutralize the particle called tubercle in the blood, and hinder its deposition in the lungs or any where else in the human system. How final to consumption is that plan which drives away disease from the throat and nose down into the lungs! A man supposes himself to have the catarrh. He runs some acrid fluid up one side of his nose and out the other. The nose is healed, but the disease has descended lower down, where it is capable of doing more harm. The true treatment is to cure the blood, and the nose and catarrh will get well without spray or douches. Dr Keyser's Lung cure will do it. Dr Keyser's office, 167 Liberty street, Pittsburg, Pa.

Beautiful Women.—The hair is the crowning glory of woman. There are few murdered defects which cannot be remedied by the proper disposition of the tresses. But when the hair begins to fall out, or turn gray in young people, or with those in the prime of life, there is cause for real regret. When this is the case, Hall's Vegetable Sicilian Hair Renewer will be found to be a first class remedy, far superior, as a sound medical medium, to anything else before the public. It actually restores gray hair to its original color, and in the great majority of cases, causes it to grow again when it is becoming thin. It is not like many popular preparations, a mere wash, but a scientific discovery, tested and used by physicians of character. Address R. P Hall & Co., Nashua, N. H.

is unequaled by any known remedy. It will eradicate, extirpate and thoroughly destroy all poisonous substances in the Blood and will effectually dispel all predisposition to bilious derangement.

Is there want of action in your liver and spleen? Unless relieved at once, the blood becomes impure by deleterious secretions, producing scrofulous or skin diseases, felons, blotches, pustules, canker, &c.

Have you a dyspeptic stomach? Unless digestion is promptly aided the system is debilitated with loss of vital force, poverty of the blood, dropsical tendency, general weakness or lassitude.

Have you weakness of the intestines? You are in danger of chronic diarrhœa or the dreadful inflammation of the bowels.

Have you weakness of the Uterine or urinary organs? You must procure instantly relief or you are liable to suffering worse than death.

Are you dejected, drowsy, dull, sluggish or depressed in spirits with head ache, back ache, coated tongue and bad tasting mouth? For a certain remedy for all of these diseases, weaknesses and troubles; for cleansing and purifying the vitiated blood and imparting vigor to all the vital forces; for building up and restoring the weakened constitution, use

JURUBEBA,

which is pronounced by the leading medical authorities of London and Paris "the most powerful tonic and alterative known to the medical world." This is no new and untried discovery but has been long used by the leading physicians of other countries with wonderful remedial results.

Don't weaken and impair the digestive organs by cathartics and physics, they give only temporary relief—Indigestion, flatulency and dyspepsia with piles and kindred diseases are sure to follow, their urs

TEN REASONS WHY

No Family should be without a bottle of WHITTLESEY in the house.

1st.—It will relieve the worst case of **Bilious Choilic** or **Cholera Morbus** in ten minutes.

2d.—It will cure the most obstinate case of **Dyspepsia** and **Indigestion** in a few weeks.

3d.—It is the best remedy in the world for **Sick Headache**, as thousands can testify, if taken when the first symptoms appear.

4th.—It is the best remedy ever put before the public; curing those distressing complaints, **Diabetes** and **Gravel** and other **Urinary difficulties.**

5th.—It is a most excellent **Emmenagogue**, and to the **Young Girls** middle aged **Women**, and at the **Turn of Life**, this remedy is of incalculable value.

6th.—It will remove wind from the bowels, and hence a few drops in some sweetened water given to a babe is better than dozen cordials to **Relieve and make it sleep.** Containing **no anodyne.**

7th.—It is a sure relief for adults and children affected with **Worms and Fin Worms.** It will bring away the worms.

8th.—It will cure the **Piles** and **Hemorrhoidal** difficulties.

9th.—It will cure **Constipation** and keep the bowels regular. It will also cure the worst case of **Summer Complaint** and **Dysentery.**

10th.—It will cure **Sour Stomach, Stimulate the Liver** to healthy action, **Relieve Heart-Burn** and act as a general **Regulator** of the system.

When taken it does not require **Nasty Drugs** and **Water** to wash it down with, but can be taken with **Sugar** and **Water** or **Wine** if you desire, and you have a **pleasant** draught.

Whittlesey Dyspepsia Cure 50 cts per bottle.
Whittlesey Acute Cure 50 cts per bottle.
Whittlesey Cough Cure 25 cts per bottle.

Ayer's

Sarsaparilla

Is widely known as one of the most effectual remedies ever discovered for cleansing the system and purifying the blood. It has stood the test of years, with a constantly growing reputation, based on its intrinsic virtues, and sustained by its remarkable cures. So mild as to be safe and beneficial to children, and yet so searching as to effectually purge out the great corruptions of the blood, such as the scrofulous and syphilitic contamination. Impurities or diseases that have lurked in the system for years soon yield to this powerful antidote, and disappear. Hence its wonderful cures, many of which are publicly known, of **Scrofula**, and all scrofulous diseases, **Ulcers, Eruptions**, and eruptive disorders of the skin, **Tumors, Blotches, Boils, Pimples, Pustules, Sores, St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm**, and internal **Ulcerations of the Uterus, Stomach, and Liver.** It also cures other complaints, to which it would not seem especially adapted, such as **Dropsy, Dyspepsia, Fits, Neuralgia, Heart Disease, Female Weakness, Debility**, and **Leucorrhœa**, when they are manifestations of the scrofulous poisons.

It is an excellent restorer of health and strength in the Spring. By renewing the appetite and vigor of the digestive organs, it dissipates the depression and listless languor of the season. Even where no disorder appears, people feel better, and live longer, for cleansing the blood. The system moves on with renewed vigor and a new lease of life.

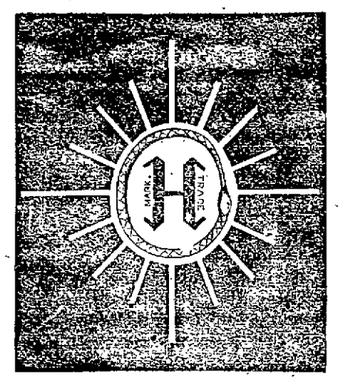
Holloway's



EXPECTORANT

The Latest

VICTORY OF MEDICAL SCIENCE.

The only existing remedy for every species of acute or chronic disease of the organs of respiration, and an absolute

SPECIFIC FOR CONSUMPTION!

This all powerful vegetable preparation expels from the lungs and air passages, the mucus and muco-pus, produced by pulmonary inflamation, heals the irritated membrane and renovates every organ which utilizes the breath of life. It contains no stupefying poison, and is in all respects a healthful medicine. The rapidity and certainty with which it

ANNIHILATES A COUGH

is astonishing. Its effects go deeper than the mere symptoms of pulmonary disease and discharges the cause from the system. Free and painless expectoration is the mode by which it relieves the lungs, chest and throat from the burdens which oppress them, thus arresting consumption and bronchitis in the germ before they reach the more dangerous stages. The emaciated sufferer

BATTLING FOR LIFE

with the most terrible scourge of our climate will find the expectorant a potent ally, and will assuredly win the fight by adhering strictly to this balsamic medicine. The

CASES NOW ON RECORD

in which it has been administered with entire success as a remedy for every variety of malady which affects the respiratory functions, amount to more than

FIVE THOUSAND

at the present date, and yet the preparation is only in the infancy of its usefulness. The great defect of all expectorants hitherto introduced is that they are simply expulsory. Hence they are useless: for unless the causes of the acrid secretions which are coughed up, are removed, and the ruptured, inflamed or macerated surfaces healed and restored to their natural tone, a cure is impossible.

HOLLOWAY'S EXPECTORANT

accomplishes these objects. The mucus and muco-pus which are the consequences of lung disease, is thrown off by it, while at the same time it soothes and invigorates the weakened tissues. As a

STERLING REMEDY

for coughs, colds, influenza, bronchial difficulties, tightness of the chest, hoarseness, sore throat, trachitis, inflamation of the lungs, difficulty of breathing, pleurisy and all disorder of a pulmonary nature, it has never been equaled.

For sale by all druggists at $1 per bottle, and at the office of the

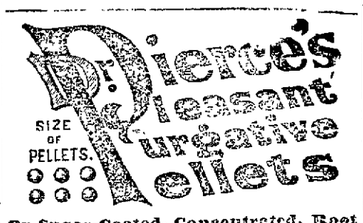
Shovel Plow Points at Kelley & Brown's.



Or Sugar-Coated, Concentrated, Root and Herbal Juice, Anti-Bilious Granules. THE "LITTLE GIANT" CATHARTIC, or Medium in Parvo Physic.

The novelty of modern Medical, Chemical and Pharmaceutical Science. No use of any longer taking the large, repulsive and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can by a careful application of chemical science, extract all the cathartic and deliterious principles from the most innocuous roots and herbs, and concentrate them into a mild granule, secure by Lovegrass and mustard seed, that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little purgative pellet contains, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in the drug shops. Form their wonderful cathartic power, in proportion to their size, people who have not tried them are apt to suppose that they are harsh or drastic in effect, but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce a most searching and **unerring**, yet **gentle** and **kindly operating cathartic.**

$500 Reward is hereby offered by the proprietor of these Pellets, to any chemist who, upon analysis, will find in them any Calomel or other forms of mercury or any other mineral poison.

Being entirely vegetable, no particular care is required while using them. They operate without disturbance to the constitution, diet, or occupation. For **Jaundice, Sick Headache, Constipation, Impure Blood, Pain in the Shoulders, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in mouth, Bilious attacks, Pain in region of Kidneys, Internal Fever, Plumbed fe. ling about Stomach, Rush of Blood to Head, High Colored Urine, Unsociability and Gloomy Forebodings**, take **Dr. Pierce's Pleasant Purgative Pellets.** In explanation of the remedial power of my Purgative Pellets over so great a variety of diseases, I wish to say that **their action upon the animal economy is universal, not a gland or tissue escaping their sympathetic influence.** Age does not impair them; their sugar-coating, being enclosed in glass bottles preserve their virtues unimpaired for any length of time, in any climate, so that they are always fresh and reliable, which is not the case with the pills found in the drug stores, put up in cheap wood or paste-board boxes. Recollect that for all diseases where a **Laxative**, the active ingredient of **Dr. Pierce's Purgative Pellets** is indicated, these little Pellets will give the most perfect satisfaction to all who use them.

They are sold by all enterprising Druggists at 25 cents a bottle.

Do not allow any druggist to induce you to take anything else that he may say is just as good as my Pellets because he makes a larger profit on that which he recommends. If your druggist cannot supply them, enclose 25 cents and receive them by return mail from

FOUTZ'S

CELEBRATED

Horse and Cattle Powders.

This preparation, long and favorably known, will thoroughly re-invigorate broken down and low-spirited horses, by strengthening and cleansing the stomach and intestines.

It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, GLANDERS, YELLOW WATER, HEAVES, COUGHS, DISTEMPER, FEVERS, FOUNDER, LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the wind, increases the appetite—gives a smooth and glossy skin—and transforms the miserable skeleton into a fine-looking and spirited horse.

To keepers of Cows this preparation is invaluable. It is a sure preventive against Bindergest, Hollow Horn, etc. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent. and make the butter firm and sweet. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster.

In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c., this articleacts as a specific. By putting from one half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given in time, is certain preventive and cure for the Hog Cholera.

DAVID E. FOUTZ, Proprietor,

BALTIMORE, Md.

Every year increases the popularity of this valuable Hair Preparation, which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR-DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."

Sold by all Druggists and Dealers in Medicines.
